Executive Summary

Introduction
EMAME Taskforce Report
Conference Report
Evaluation and Suggestions
Appendix

Introduction. The 2nd Regional Conference on Medical Journals in the Eastern Mediterranean Region was held in Riyadh, Kingdom of Saudi Arabia, 10-12th October, 2004. It was organized by the Saudi Medical Journal (SMJ), the World Health Organization Regional Office for the Eastern Mediterranean (WHO EMRO) and King Abdulaziz City for Science and Technology (KACST); in collaboration with the Islamic Educational, Scientific and Cultural Organization (ISESCO). The conference was held at the premises of the Armed Forces Hospital and included a pre-conference course on Research in the Region: Current Status and a Window to the Future and a 2 day conference on medical journalism including a 4-hour workshop on statistics in clinical research. The objectives of the conference were:

- ◆ Outline the importance and current status of research in the region and the importance of statistics for medical editors.
- ◆ Review the current status of medical journals in the region and outline guidelines for a successful journal, and requirements needed to be an editor or peer reviewer.
- ◆ Outline the current status of medical ethics and scientific misconduct and its importance for publications in the region, and the importance of evidence-based medicine in designing and evaluating published material.
- ◆ Highlight the importance of journal indexing, and impact of e-health journalism.

The conference sessions covered topics on medical journals in the Region, editorship, peer review and publications, e-journalism and indexing, medical ethics and evaluation of published manuscripts (evidence-based medicine). Keynote presentations were given on the role of journal editors in promoting good scientific writing, the rights and responsibilities of medical journal editors, peer review, e-journalism and its impact on availability and accessibility to health and biomedical information, medical ethics and scientific misconduct, how journals should deal with reports of harm and also a special lecture on how to run a successful journal. There were 48 oral presentations on a wide range of subjects relevant to medical journals in the region and 10 poster presentations. One hundred and fifty-five participants from 11 countries of the Region

attended the conference. Representatives of WHO Headquarters, Geneva (Ramesh Shademani), the World Association of Medical Editors (WAME) (Bruce Squires and Farrokh Habibzadeh) and the Forum for African Medical Editors (FAME) (James Tumwine) were also present in support of the conference. Eminent faculties from outside the region were invited, and included Bruce Squires (Canada), Robert Daroff (United States) and Andrew Herxheimer (United Kingdom). In addition, there were also attendees from Turkey and India. Participants included editors and staff of medical journals in the region, as well as other interested participants from institutions in the Region. Editors and Editorial Board members from local journals included Saudi Journal of Gastroenterology, Saudi Journal of Ophthalmology, Saudi Pharmaceutical Journal, Saudi Journal of Kidney Diseases and Transplantation, Saudi Dental Journal, Health and Nutrition Magazine, Annals of Saudi Medicine, Pan Arab Journal of Neurosurgery, and Neurosciences.

EMAME Taskforce Report. The 1st Regional Conference held in Cairo, October 2003 resulted in a Taskforce to establish the Eastern Mediterranean Association of Medical Editors (EMAME). Since then there has been extensive communication and exchange of ideas between the Taskforce members.

A Taskforce business meeting was held during the 2nd Regional Conference, on Sunday 10th October 2004 at 8 p.m. and during the meeting Najeeb Al-Shorbaji from WHO EMRO, Bruce Squires and Farrokh Habibzadeh from WAME, James Tumwine from FAME and Andrew Herxheimer from the Cochrane Collaboration presented their experience and guidance for the future of EMAME. Basim Yaqub, Co-ordinator of the Taskforce presented the draft Constitution and the following decisions were taken:

1. Finalizing the essence of the constitution which was approved unanimously. This will shortly be available to all members, and it will appear in the Conference Supplement and EMAME website.
2. EMAME will be a part of a network of WHO EMRO, with all the support and collaboration available.
3. As the job of the Taskforce is finished, it was agreed that the existing Taskforce will act as interim Executive

Council until the next conference with the following objectives:

1. Increase and widen the number of members. It was approved that all editors attending the first or second meeting will be the founding members of the Association; however, the Executive Council will strive to increase the membership as much as possible.
2. Explore the issue of education and training through courses and workshops held in different countries of the region in collaboration with WHO EMRO, and the possibility of developing a regional course.
3. Establish a website for EMAME and continue the current listserv and encourage further discussion through the listserv.
4. Continue the existing objectives of the Association.
5. Maintain collaboration between EMAME and other similar associations, especially WAME and FAME.
6. Plan for a meeting of the General Assembly of EMAME at the next regional conference, and election of the Executive Council.

It was also decided to nominate Shiraz, Islamic Republic of Iran for the next meeting within the next 2 years, and Farhad Handjani will finalize the exact dates and venue. Bahrain and Pakistan also offered to host future conferences.

The interim Executive Council members and responsibilities will be as follows:

President: *Basim Yaqub, Saudi Arabia*
Vice-President: *Ahmed Jamal, Bahrain*
General Secretary: *Farhad Handjani, Islamic Republic of Iran*
/Treasurer: *Ahmed El-Morsy, Egypt*
Members: *Yusif Kordofani, Sudan*
Maqbool Jafary, Pakistan
Jane Nicholson, WHO EMRO

Administrative Secretary: *Susan Douglas, Saudi Arabia*
Najeeb Al-Shorbaji and Farrokh Habibzadeh will be advisors to the interim Executive Council, and Bruce Squires accepted the invitation to be an honorary member of the Association.

The report of the Taskforce was presented by Basim Yaqub to the Conference members (General Assembly) and was endorsed. So, the official birth of the Eastern Mediterranean Association of Medical Editors was announced.

Conference Report. Najeeb Al-Shorbaji presented acknowledgment and recommendations, which were endorsed by the General Assembly.

Acknowledgment

1. The conference congratulates Saudi Medical Journal and the Journal Patron HRH Prince Sultan Bin Abdul-Aziz, Second Deputy Prime Minister, Minister of Defence and Aviation and Inspector General on the occasion of its 25th Anniversary. The participants thank HRH Prince Khalid Bin Sultan Bin Abdul-Aziz, Assistant to the Minister of Defence and Aviation and Inspector General, Saudi Arabia, the Patron of the Conference for his support and General Saleh Bin Ali Al-Mohaya, Chief of Staff Command for Opening the Conference. They also acknowledge the leadership and staff of the Medical Services Department, Riyadh Armed Forces Hospital and Saudi Medical Journal for their hospitality and excellent organization of the Conference.
2. The participants would like to thank the World Health Organization Eastern Mediterranean Regional Office and its Regional Director, Dr. Hussein Gezairy, for initiating, co-organizing and supporting the conference.
3. The participants also thank King Abdul-Aziz City for Science and Technology, and its President, Saleh Al-Athel, for co-organizing and supporting the conference.
4. The participants also thank the Islamic Education, Scientific and Cultural Organization and its President, Abdul-Aziz Al-Twajiri for their support of the conference.

Recommendations

1. The conference gave its support to the establishment of EMAME and recommended that all editors of biomedical journals in the Region should support the interim Executive Council of EMAME to implement its objectives.
2. EMAME and WHO EMRO should maintain and strengthen their collaboration in support of the cause of biomedical journals in the Region and develop regional educational and training courses.
3. EMAME should develop a regional code of publishing ethics including plagiarism and scientific misconduct.
4. EMAME should develop a mechanism to enhance the exchange and dissemination of knowledge and information.
5. EMAME should establish committees and subcommittees on medical ethics, basic and clinical research, editorship, education and training and others.
6. All biomedical journals in the Region should explore all possibilities for communication, collaboration and exchange of expert opinion among themselves.
7. All biomedical journals in the Region should continue and enhance the exchange of the regional journals among publishers and libraries.
8. All biomedical journals in the Region are encouraged to publish an electronic version of their journal free of charge on the internet and collaborate with WHO

EMRO in maintaining the regional electronic medical journals portal.

9. All biomedical journals in the Region should support and make efforts to seek sponsorship for attending the next regional conference on biomedical journals in Shiraz, Islamic Republic of Iran, to be held within the next 2 years.
10. All biomedical journals in the Region are encouraged to publish the Executive Summary report of the 2nd Regional Conference.

Evaluation and suggestions

The evaluation of the conference by the attendees is shown in Figure 1.

There were a few suggestions and comments from the attendees which will be endorsed to Farhad Handjani to take into consideration at the next meeting. These included:

1. Workshops should be “hands-on,” interactive and should cover more than one topic. Possibly to be held over 2 days, one before and one after the conference.
2. Topics suggested for future workshops are peer review practices, handling the review process, standardization of editorial practice, publishing ethics, running a successful journal, copy editing and publishing technology. The topics discussed in the workshop should not be repeated in the conference.
3. In addition to the workshop and the conference, a full day course on research methodology may be advantageous for both researchers and editors.
4. The usefulness of having secondary medical publications in the region was suggested as a topic for a future conference.
5. Availability of computer and communication facilities for the attendees at the conference site.
6. Extend sponsorship to more editors in the region to benefit from such a conference through different means.

In conclusion, the conference was successful as it fulfilled most of its objectives and marked the birth of EMAME.

Appendix

In this appendix we present more information on some people mentioned in this conference report in alphabetical order:

Najeeb Al-Shorbaji, Regional Advisor, Health Information Management, WHO EMRO, Advisor, EMAME Interim Executive Council
e-mail: shorbajin@emro.who.int

Robert Daroff, Professor of Neurology and Interim Vice Dean for Education and Academic Affairs, CASE School of Medicine, Case Western Reserve University, Former Editor-In-Chief of Neurology
e-mail: robert.daroff@case.edu

Susan Douglas, Assistant Editor, Saudi Medical Journal & Neurosciences, Administrative Secretary of EMAME
e-mail: smorrison@smj.org.sa

Ahmed El-Morsy, Chief Editor, Egyptian Journal of Histology, Member, EMAME Interim Executive Council
e-mail: hesham1967@hotmail.com

Farrokh Habibzadeh, Deputy Editor, Iranian Journal of Medical Sciences, Director, WAME, Advisor, EMAME Interim Executive Council
e-mail: habibzaf@sums.ac.ir

Farhad Handjani, Editor-In-Chief, Journal of Medical Research, Interim General-Secretary/Treasurer of EMAME
e-mail: hanjanif@yahoo.com, hanjanif@sums.ac.ir

Andrew Herxheimer, Emeritus Fellow, UK Cochrane Centre
e-mail: a@herxheimer.net, andrew_herxheimer@compuserve.com

Maqbool Jafary, Chief Editor/Chairman Editorial Board, Pakistan Journal of Medical Sciences, Member, EMAME Interim Executive Council
e-mail: drjafary@fascom.com

Ahmed Jamal, Chief Editor, Journal of the Bahrain Medical Society, Interim Vice-President of EMAME
e-mail: jbms@batelco.com.bh, ajajamal@hotmail.com

Yusif Kordofani, Editor, Juba Medical Journal, Member, EMAME Interim Executive Council
e-mail: kurdicompany@yahoo.co.uk

Jane Nicholson, Editor, WHO EMRO, Member, EMAME Interim Executive Council
e-mail: nicholsonj@emro.who.int

Ramesh Shademani, Editor (Papers & Editorials), Bulletin of the WHO
e-mail: shademanir@who.int

Bruce Squires, Founding Member, World Association of Medical Editors, Former Editor-in-Chief, CMAJ, Honorary member of EMAME
e-mail: bpsquires@sympatico.ca

James Tumwine, Chair, Forum for African Medical Editors (FAME), Editor-In-Chief, African Health Sciences
e-mail: jtumwine@imul.com

Basim Yaqub, Editor, Saudi Medical Journal & Neurosciences, Interim President of EMAME
e-mail: byaqub@smj.org.sa
