

Table 3 Median levels of maternal-specific IgG antibodies to measles, mumps and rubella among infants in relation to mothers' history of vaccination, infection, exposure and no history of any of the 3 viral diseases (*n* = 566)

Virus	Median maternal-specific IgG level (IU/mL) in infants				<i>P</i>-value
	Born to mothers with exposure to infection	Born to mothers with infection	Born to mothers with vaccination	Born to mothers with no history of infection	
Measles	3.3	3.9	3.8	2.0	0.003
Mumps	200.7	233.2	212.9	89.4	< 0.001
Rubella	207.2	406.7	262.3	134.1	< 0.001
