

Table 3 Personal hygiene and sexual habits of women suffering from urinary tract infection ($n = 100$) and matched controls ($n = 150$)

Personal habit	Cases Mean (SD)	Controls Mean (SD)	P-value
Taking a bath (No. of times/week)	3.11 (0.99)	3.41 (1.53)	< 0.05
Replacing underwear (No. of times/week)	4.14 (1.80)	5.08 (2.02)	< 0.0001
Coitus (No. of times/week in last 30 days)	2.63 (1.01)	1.81 (0.94)	< 0.0001

SD = standard deviation.
