

Table 3 Logistic regression analysis of the variables included in the study

Risk factor	Adjusted OR	95% CI	P-value
Low maternal serum zinc level	5.06	1.51–16.94	0.008
Maternal exposure to drugs in 1st trimester	13.12	1.31–130.97	0.028

OR = odds ratio; CI = confidence interval.
