

**Table 2** Antimicrobial resistance rates of confirmed methicillin-resistant *Staphylococcus aureus* isolates from health care workers from all 4 hospitals

Antibiotic	Source					
	Hospital A	Hospital B	Hospital C	Hospital D	All hospitals	
	No.	No.	No.	No.	No.	%
Oxacillin	98	3	0	8	109	100
Ciprofloxacin	82	1	0	1	84	77
Erythromycin	77	2	0	2	81	74
Trimethoprim/sulfamethoxazole	53	1	0	1	55	50
Clindamycin	31	1	0	1	33	30
Quinupristin/dalfopristin	21	0	0	0	21	19
Vancomycin	12	1	0	0	13	12
Mupirocin	5	0	0	0	5	5
MLSB <sub>i</sub>	6	0	0	0	6	6
MLSB <sub>c</sub>	11	1	0	0	12	11
Total	98	3	0	8	109	100

Hospital A = general hospital; hospital B = paediatric hospital; hospital C = emergency hospital; hospital D = eye surgery hospital.

MLSB<sub>i</sub> = macrolide-lincosamide-streptogramin B inducible resistance; MLSB<sub>c</sub> = macrolide-lincosamide-streptogramin B constitutive resistance.
