

**Table 3 Multivariate analysis of the association between vaccination status (complete versus incomplete 4 doses oral polio vaccine vaccination schedule) and selected characteristics of the 7-month-old children ( $n = 125$ )**

<b>Variable</b>	<b>OR (95% CI)</b>	<b>P-value</b>
Exclusive breastfeeding	1.44 (0.63–3.28)	0.384
Sex	1.05 (0.46–2.41)	0.894
Father's education <sup>a</sup>	0.51 (0.21–1.27)	0.148
Mother's education <sup>a</sup>	2.30 (0.84–6.32)	0.104
Household car ownership	0.81 (0.28–2.39)	0.710
Household mobile phone ownership	1.28 (0.52–3.13)	0.470

<sup>a</sup>Illiterate = 0, capable of reading and writing = 1.

OR = odds ratio; CI = confidence interval.
