

Table 1: Data sources of the M&E indicators

Dimensions	Indicators	Data platforms	Frequency	Responsible agencies	Level	Availability
Inputs	1. Financing (8 indicators)	<ul style="list-style-type: none"> Household Income and Expenditure Survey (HIE); National Health Account (NHA) 	<ul style="list-style-type: none"> HIE: Annually since 1963 NHA: Annually, since 2000 	<ul style="list-style-type: none"> NSC (National Statistics Center) 	National, urban/rural, by wealth quintiles	Available
	2. Infrastructure and health workforce (6 indicators)	<ul style="list-style-type: none"> Services Availability and Readiness Assessment Survey (SARA); Routine Information System (RIS); 	<ul style="list-style-type: none"> SARA: has not been implemented yet 	<ul style="list-style-type: none"> MoHME 	National, provincial,	SARA has not been conducted yet; data before HTP (2014) are not available;
	3. Health Information System (2 indicators)	<ul style="list-style-type: none"> Services Availability and Readiness Assessment Survey (SARA); Routine Information System (RIS); 	<ul style="list-style-type: none"> SARA: has not been implemented yet 	<ul style="list-style-type: none"> MoHME 	National, provincial,	SARA has not been conducted yet
Outputs	1. Access and coverage of health services (outpatient, inpatient and primary health care services) (15 indicators)	<ul style="list-style-type: none"> Utilization Health Services Survey (UHS); Iranian Multiple Indicators of Demographic and Health Survey (IrMIDHS); Access to Essential Medicine and Vaccine (EM&V); 	<ul style="list-style-type: none"> UHS: 2003, 2008,2014 and 2014; IrMIDHS: 1999, 2010 and 2015; EM&V: has not been implemented yet 	<ul style="list-style-type: none"> NIHR NSC 	National, urban/rural, by wealth quintiles	EM&V has not been conducted yet
	2. Utilization of health services (5 indicators)	<ul style="list-style-type: none"> Iranian Multiple Indicators of Demographic and Health Survey (IrMIDHS); Routine Information System (RIS); 	<ul style="list-style-type: none"> IrMIDHS: 1999, 2010 and 2015; RIS: annually. 	<ul style="list-style-type: none"> NIHR NSC MoHME 	National, urban/rural, by wealth quintiles	Not available for all indicators and levels
	3. Service quality and safety (10 indicators)	<ul style="list-style-type: none"> Iranian Multiple Indicators of Demographic and Health Survey (IrMIDHS); Routine Information System (RIS); 	<ul style="list-style-type: none"> IrMIDHS: 1999, 2010 and 2015; RIS: annually. 	<ul style="list-style-type: none"> NIHR NSC MoHME 	National, urban/rural, by wealth quintiles	Not available for all indicators and levels
Outcomes	1. Effective coverage of services (13 indicators)	<ul style="list-style-type: none"> Utilization Health Services Survey (UHS); Iranian Multiple Indicators of Demographic and Health Survey (IrMIDHS); STEPwise approach to surveillance (STEPS); Some specific studies (not determined) 	<ul style="list-style-type: none"> UHS: 2003, 2008,2014 and 2014; IrMIDHS: 1999, 2010 and 2015; STEPS: annually or biannually since 2005 	<ul style="list-style-type: none"> NIHR MoHME 	National, urban/rural, by wealth quintiles	Not available for all indicators and levels
	2. Health risk factors (12 indicators)	<ul style="list-style-type: none"> Utilization Health Services Survey (UHS); Iranian Multiple Indicators of Demographic and Health Survey (IrMIDHS); Routine Information System (RIS); Some specific studies (not determined); 	<ul style="list-style-type: none"> UHS: 2003, 2008,2014 and 2014; IrMIDHS: 1999, 2010 and 2015; STEPS: annually or biannually since 2005 	<ul style="list-style-type: none"> NIHR MoHME 	National, urban/rural, by wealth quintiles	
Impacts	1. Health status (11 indicators)	<ul style="list-style-type: none"> Iranian Multiple Indicators of Demographic and Health Survey (IrMIDHS); Routine Information System (RIS); STEPwise approach to surveillance (STEPS); Some specific studies (not determined) 	<ul style="list-style-type: none"> IrMIDHS: 1999, 2010 and 2015; STEPS: annually or biannually since 2005 	<ul style="list-style-type: none"> NIHR MoHME 	National, urban/rural, by wealth quintiles	Not available for all indicators and levels
	2. Financial risk protection (2 indicators)	<ul style="list-style-type: none"> Household Income and Expenditure Survey (HIE); 	<ul style="list-style-type: none"> HIE: Annually since 1990 (with new method) 	<ul style="list-style-type: none"> NSC 	National, urban/rural, by wealth quintiles	Available
	3. Satisfaction of health services (3 indicators)	<ul style="list-style-type: none"> Utilization Health Services Survey (UHS); Patient and provider's satisfaction survey; 	<ul style="list-style-type: none"> UHS: 2003, 2008,2014 and 2014; IrMIDHS 	<ul style="list-style-type: none"> NIHR 	National, urban/rural, by wealth quintiles	Not available before HTP
