

Table 3 Association of indices of sexual abuse with sociodemographic and psychosocial variables

Sociodemographic variable	Significant different groups	Total with abuse No. (%)^a	χ^2	df
Faculty ^b	Women's college > others	7 (20.5)	78.1**	50
Parents' marital status (ever abused)	Separated/divorced > others	53 (33.1)	20.9***	2
Parents' marital status ^b	Separated/divorced > others	68 (20.0)	31.7***	10
Living with who (ever abused)	Living with non-parent other > others > both parents	32 (34.8)	25.5***	3
Living with who ^b	Living with non-parent other > others > both parents	15 (16.3)	41.3***	15
Mother's education (ever abused)	Secondary education > others	77 (24.8)	17.3**	5
Polygamy (ever abused)	Polygamous > monogamous	38 (20.2)	12.6**	2
Polygamy ^b	Polygamous > monogamous	19 (10.1)	23.7**	10
Monthly income (ever abused)	Income less than US\$ 1800 > others	52 (34.0)	29.5***	4
Monthly income ^b	Income less than US\$ 1800 > others	27 (17.6)	49.4***	20
Smoking status ^v	Daily smoker > non-smoker	11 (11.0)	59.2***	15
Physical fights ^b	Physical fight last year > no physical fight	43 (17.4)	32.6***	5
Police arrest ^b	Arrested by police > not arrested	28 (16.1)	27.1***	5

^a% of significant group. Because of missing responses, the overall total as denominator is less than the original total number.

^bMultiple abuses (≥ 2 forms of abuse).

** $P < 0.01$, *** $P < 0.001$.

df = degrees of freedom.
