

**Figure 2** The frequency of symptoms in 387 advanced cancer patients admitted to Palliative Care Unit, Imam Khomeini Hospital, March 2019 to March 2020, by cancer site. Bars show total frequency of symptoms reported by patients with cancer at each site. Each colour indicates the frequency of a symptom. Table below the graph shows the total number of patients, frequency of symptoms and the mean number of symptoms for each site of cancer.
