If the number of admitted COVID-19 patients in a city is <2 per 100,000 populations per day, the status of that city will be **blue**; if the number is  $\geq 2$  and <4 per 100,000 populations, the status will be **yellow**; if the number is  $\geq 4$  and <6, the status will be **orange**; and if the number increases to  $\geq 6$ , the status will be **red**.

The status of the cities is being updated in the Mask app, endorsed by Iran's Ministry of Health and Medical Education, Link to the Mask application website: <https://mask.ir/>

**Imposed National and Provincial Restrictions**

As a patient-tracking measure, all citizens are required to be in possession of their national ID cards as a prerequisite to gain entry to government offices, receive public services, or use public transport.

As of 21 November 2020, the following scheme, called “smart management of restrictions,” has been implemented nationwide. In this scheme, the alert level for the cities is reviewed weekly, and corresponding closures/openings are applied for one week. More details on the alert level of cities

can be found on the risk map and provincial capitals risk status table.

Technical Deputy of Ministry of Health Environmental and Occupational Health Center announced that reception halls are allowed to operate in cities of blue and yellow status. The maximum number of participants allowable in a hall is 75 people in blue cities and 55 in yellow ones. However, in outdoor halls the maximum capacity may be twice these numbers. The maximum duration of events is 3 hours.
