

QUARTERLY NEWSLETTER

Jordan Country Office

Q1 | ISSUE
2022 | **01**

Welcoming

Dr Jamela Al-Raiby
WHO Representative to Jordan

IT IS WITH GREAT PLEASURE WE AT WHO COUNTRY OFFICE (WCO) IN JORDAN

present you the first edition of WCO quarterly newsletter. The newsletter showcases WCO efforts in achieving Jordan's vision 2025 and its health priorities. Those efforts are the translation of Eastern Mediterranean vision 2023- "*Health for All by All*", in alignment with WHO global targets towards achieving Universal Health Coverage (UHC), Health Emergencies and Health and Wellbeing.

It highlights the quarterly achievements of WCO during first quarter of 2022, that was greatly supported by the effective partnership with Ministry of Health, national stakeholders, and development partners in Jordan, to meet the demands of Jordan's health priorities.

A delegation led by WHO Assistant Director-General in collaborations with MOH a mission conducted for Antimicrobial Resistance Dr Hanan Balkhy, Regional Office and WCO to discuss the **implementation of Jordan's national antimicrobial resistance action plan.**

CLICK 

The Jordan Food and Drug Administration (JFDA), in collaboration with the Ministry of Health and WCO, and with the participation of all health stakeholders in the country, launched a programme to **enhance the capacities of the national pharmacovigilance system.**

CLICK 

Funded by the European Union Syria Trust Fund, World Health Organization in Jordan in collaboration with the Royal Medical Services conducted a workshop to provide an *introduction to health economics and application of key concepts for decision making process in health policy reforms*.

« **WHO** and other multilateral agencies in Jordan called for education to continue to be prioritized during COVID-19, and issued joint press release from UN agencies and development partners.

WHO *mental health mission to Jordan* conducted by WCO and Regional Office, to support implementation of the National Mental Health and Substance Use Action Plan (2022-2026) and the WHO Director- General’s Special Initiative for Mental Health (2019-2023).

MASK UP campaign to follow precautionary measures to protect from COVID-19.

Ministry of Health with the technical support of the WCO initiated a series of training workshops for health care professionals at primary health care level on the **prevention and control of cardiovascular disease risk factors programme (HEARTS) aiming to enhance the early detection and control of hypertension, diabetes and cardiovascular risk.**

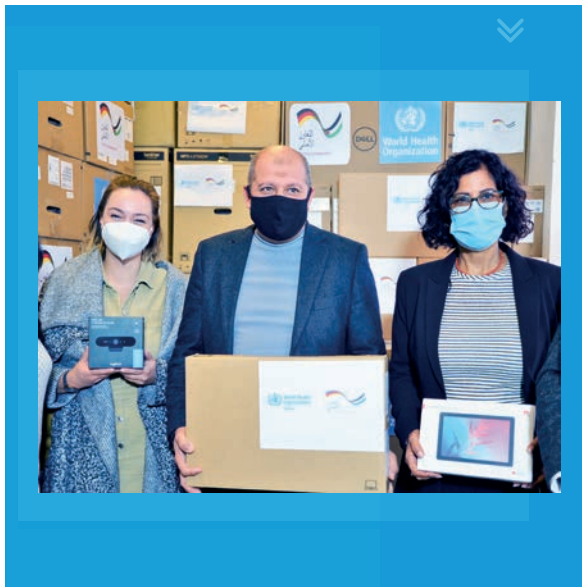

A delegation from the WHO Regional Office and WCO conducted a **public health emergency preparedness, readiness and response mission in Jordan** to review and assess the current technical and operational capacities of the Ministry of Health and country office in Jordan to address public health emergencies.

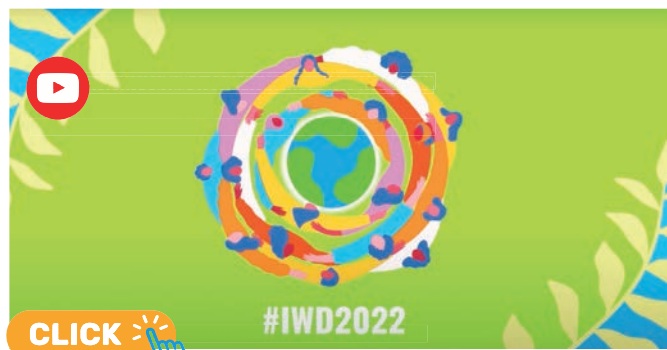

**DONT FORGET,
COVID-19 IS
NOT OVER YET**

GET TO KNOW OUR STAFF

It is an important responsibility to be part of the emergency response during COVID-19 in Jordan. More importantly, it has been a huge learning public health experience to serve the population in crisis.

Dr Saverio Bellizzi
Health Emergencies Lead

Having worked with WHO for over 20 years, I have a privilege of working with diversified community at WCO, allowing me to be a part of this bigger family.

Zaid Al Momani
Senior Driver

As a UN Volunteer working with communication team at WCO, I was provided with many learning opportunities to better enhance my skills to further contribute to "communicating for health" impact in Jordan.

Olle Mjengwa
Communication Associate Officer
