## Maintaining Essential Health Services in Pakistan

Essential medical services in Balochistan continued during the COVID-19 response period though not at full capacity. As the number of COVID-19 cases started to decline in July 2020 the capacity to provide essential medical services increased. It was during this time that Balochistan Children Hospital (BCHQ) re-opened the WHO supported Nutrition Stabilisation Centre (NSC). WHO provided supplies for establishment of the NSC including stocks of therapeutic milk F75 and F100, RUTF and training in inpatient treatment of severely acutely malnourished children with complications. A formal letter of understanding was signed on July 2, 2020 by BCHQ, WHO and Provincial Nutrition Directorate (PND) for WHO to support BCHQ.
