Maintaining Essential Health Services in Pakistan

WHO and UNFPA have entered into a joint partnership worth US \$ 264,600. The interventions under this partnership will focus on GBV prevention, improving facility based readiness and service provision to GBV survivors, Pre-service and in-service capacity building of health care providers and community health workers on provision of clinical management, psycho-social support and referral of survivors as well as development of multi-sectoral referral pathways. These interventions are relevant to the current context of COVID-19 outbreak and address the intersections of gender/GBV and COVID-19. The interventions will be implemented in the provinces of Punjab and KP over the period of 6 months.
