## Meetings & Coordination

On 28th July 2021, World Health Organization Pakistan in collaboration with the National Institute of Health (NIH) and National Reference Public Health Laboratory commenced a 3-day training for laboratory scientists and technical staff from NIH and AJK labs at Ramada Hotel, Islamabad.

The objective of this training is to enhance the capacity of laboratory scientist in the implementation of safer laboratory practices and procedures. This training in bio-risk management is in compliance with the International Health Regulations (2005). The competencies imparted on the participants is expected to protect the laboratory workforce and wider community against unintentional exposures or release of pathogenic biological agents. A total of 24 health professionals from the two institutions benefited from the training.
